

Record Your Name – Audio Recorder

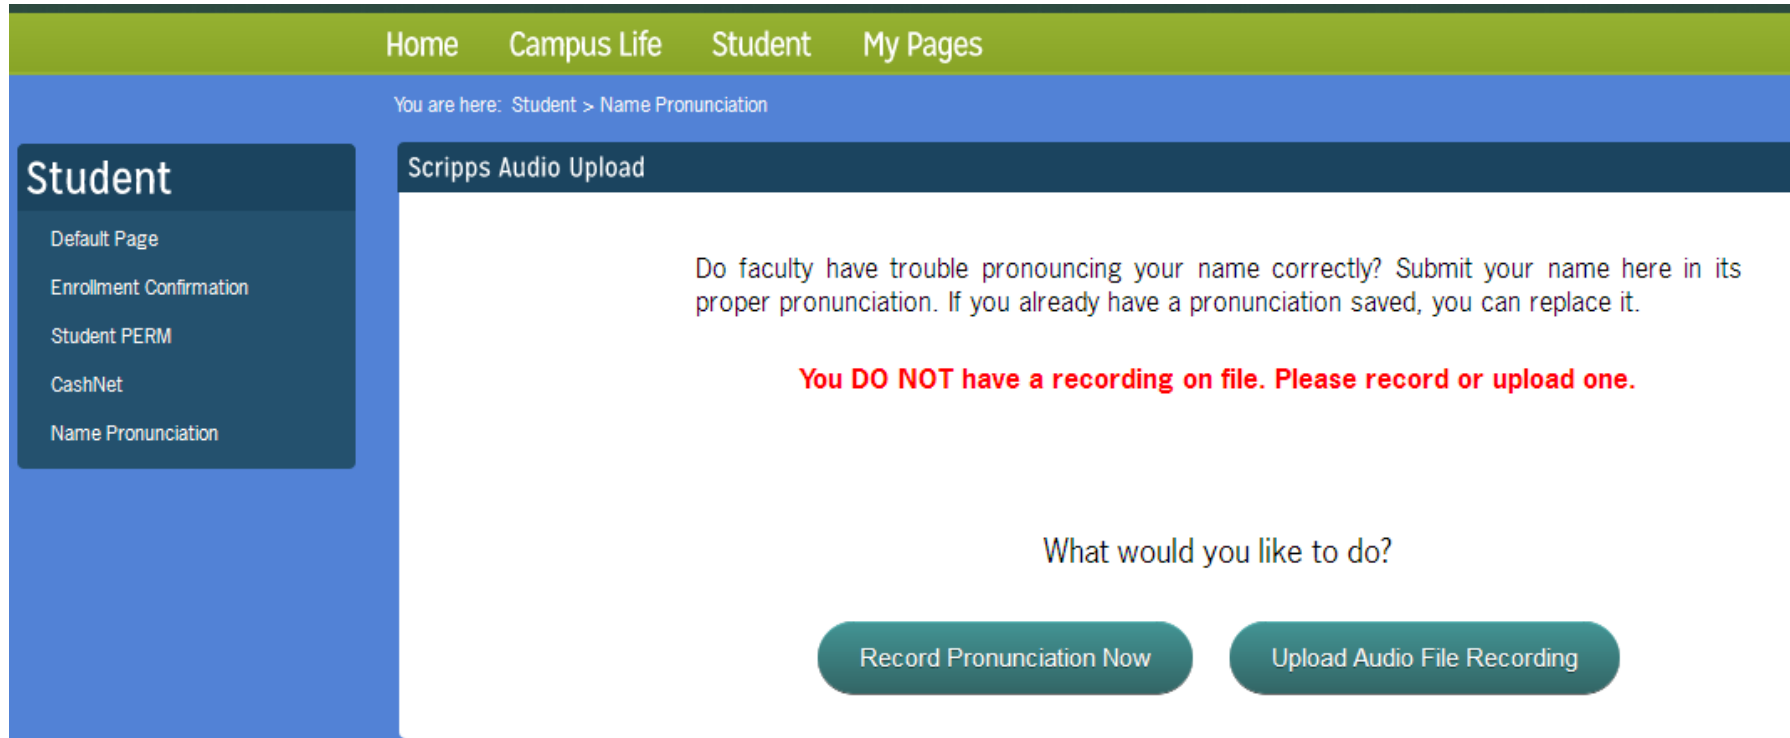

- Can be done from browser as long as your computer has a microphone and speaker and your browser supports flash.
- Make sure you find a quiet place.

The image contains three screenshots illustrating the steps to access the Name Pronunciation tool:

- Step 1:** A screenshot of the Scripps College website home page. A red arrow points to the 'Portal' menu in the left sidebar, which includes links for Home, Campus Resources, Course Schedules, Current Database Status, and Campus Announcements.
- Step 2:** A screenshot of the 'Student' page. A red arrow points to the 'Student' link in the top navigation bar, which also includes 'Home' and 'Campus Life'. Below the navigation bar, the breadcrumb trail reads 'You are here: Student > Default Page'.
- Step 3:** A screenshot of the 'Student PERM' page. A red arrow points to the 'Name Pronunciation' link in the main content area. Other visible links include 'CashNet' and 'GPA P'.

Record Your Name – Audio Recorder

- Follow the instruction on the screen to complete your task.
- If you are unable to complete the steps, bring your student ID card to IT office at a later time, we will help you to complete the steps.

The screenshot shows a web interface for recording a name pronunciation. At the top, there is a navigation bar with links for Home, Campus Life, Student, and My Pages. Below this is a breadcrumb trail: "You are here: Student > Name Pronunciation". On the left side, there is a "Student" menu with options: Default Page, Enrollment Confirmation, Student PERM, CashNet, and Name Pronunciation. The main content area is titled "Scripps Audio Upload" and contains the following text: "Do faculty have trouble pronouncing your name correctly? Submit your name here in its proper pronunciation. If you already have a pronunciation saved, you can replace it." Below this text is a red warning message: "You DO NOT have a recording on file. Please record or upload one." At the bottom of the main content area, there is a question "What would you like to do?" followed by two buttons: "Record Pronunciation Now" and "Upload Audio File Recording".
